About Other Shakers

**Add a New Dimension to Your
Custom Home Theater**

"The ButtKicker was awesome. I felt like I was right there in the movie. This is how movies were meant to be experienced. What a difference."

**Rebekah Koppenhaver-
Wide Screen Review**

"Worth noting here was how clean each response was, accentuated and in perfect synch with the on screen action, not vague or buzzy, as was sometimes the case with an old subwoofer of mine.

...the ButtKicker is extremely spouse-friendly. You can and probably should turn down the subwoofer, to create a more balanced soundfield with no perceived loss of bass response, and cohabitants outside the room will scarcely hear a thing."

**Chris Chiarella-
Home Theater Magazine**

ButtKicker[®] 2

“More Power Per Square Foot”

The ButtKicker is not just for special effects. *Because it was designed for music, you can now have a full, concert hall audio experience without excessive volume.*

Now everyone can enjoy conversations *while watching movies. And, because the low end is effectively isolated to a chair, or a couch, or a suspended wood floor, there is much greater control of sound pressure throughout the entire house. Combined, these attributes make the ButtKicker extremely spouse and neighbor friendly. It virtually eliminates low end sound “bleeding” into adjoining rooms or connected housing.*

The ButtKicker allows you to feel the low end *without making the room loud. You can decrease the sound pressure level from the subwoofer, and still feel all the low end you want.*

smaller, better, more responsive.

Specifications:

Dimensions: 5.375" h x 5.5" w, oval
Frequency Response: 5–200 Hz
Weight: 12 lbs./5.45 kg.
Nominal Impedance: 4 ohms
Power Handling: 400 watts minimum/1500 watts maximum

More Powerful

One ButtKicker can easily replace 3, 4, 5 or even 6 voice coil shakers.

More Responsive

Designed by musicians and studio engineers, the ButtKicker is musically accurate, with a tight, “on-the-beat” transient response and is used by some of the most demanding musicians in the world.

Smaller

Now only 5.375" tall and 5.5" wide the ButtKicker can satisfy more critical space limitations and fit within a 2" x 6" joist.

Virtually Indestructible and Maintenance-Free

With only one magnetically suspended moving part, and a thermal switch for heat protection, the ButtKicker is the last shaker you'll ever need to buy.

Better

The ButtKicker uses a patented, magnetically suspended piston system, unlike anything else on the market. It provides tremendous power, musical accuracy, frequency response and longevity.
